MY VISION

As a data scientist, I envision leveraging my engineering background and leadership skills to pioneer transformative solutions. I aim to harness the power of data to drive insightful decision-making and innovation, using my expertise in Python programming and web development to create elegant and impactful solutions. Committed to continuous learning, I seek to push the boundaries of what is possible in data science, embracing emerging technologies to create a future defined by innovation and impact.

SKILLS

- Python
- C++
- Flask
- Matplotlib
- Pandas
- Numpy
- SQL
- FrontEnd Web
- Git
- Github
- Leadership
- Communication
- Problem - Solving
- Decision - Making

WORK EXPERIENCE

Google Developer Student Clubs

Web Developer • July 2023 - Present

- Contributed to team discussions and goals.
- Participated in project meetings and learned to work in team.
- Implemented design and functionality elements.
- Supported troubleshooting efforts.

Social Winter Of Code(SWOC)

Contributor • Jan 2024 - Feb 2024

- First contribution in open-source
- Contributed in a Python-Voice Assistant
- learned how to manage tasks and how to meet deadlines
- Git and Github

EDUCATION

Bachelor of Engineering

Chitkara University • 2022–2026
CGPA : 9.4 (4th Semester)

12th (CBSE)

St. Mary's Academy • 2021–2022

10th (CBSE)

St. Mary's Academy • 2019-2020
91.4%

ACHIEVEMENTS

Third Prize in Coding Competition

Chitkara university , 2023

Explorhibit Exhibition

Team got selected in top 5 under my leadership, 2023

Google Cloud Study Jam, 2023

Chitkara university , 2023

Python Development Intern

Octanet, 2023
